**Attention:** To whom it may concern

**RE: LETTER OF REFERENCE – WALLY’S BACKHOE SERVICES**

Both my self and the company have been working with Wally’s Backhoe services for over a decade on various municipal infrastructure projects in the Stettler area. The projects have included the replacement or new installation of water, sanitary and storm mains of various sizes, including lot services, as well as road reconstruction.

Levi, his crew and support staff are very well versed in this field, and we have found them to be very professional in their conduct with both ourselves, clients and the public. The company is always willing to go the extra mile to satisfy the client and the public to ensure a project is completed on time, on budget and within specification.

We have found them to be one of the most approachable and easy to work with contractors in the Central Alberta area and would recommend them as a capable and confident infrastructure contractor.

**Yours truly,**

**TAGISH ENGINEERING LTD.**
