**Attention:** To whom it may concern

**RE: LETTER OF REFERENCE – WALLY'S BACKHOE SERVICES**

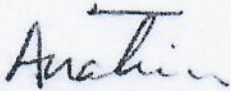

McElhanney and I worked with Wally's Backhoe Services last year and will continue working with them this year on a municipal infrastructure project in the Rosebud area. The project included the replacement or new installation of a water main including a portion of gravel road reconstruction.

While working with Levi and his team, I found them to be easy to work with, always communicating and anticipating next steps and issues that may arise, as well as providing potential solutions. Levi has maintained constant communication with the public to ensure safety and awareness of the work being completed.

Due to the good working relationship I have experienced with Wally's Backhoe Services, I would recommend them as a competent contractor for infrastructure projects.

Please do not hesitate to contact me with any questions or comments. Thank you!

Kind regards,

Ana Tarin Arvizu, E.I.T.
